11th February 2016

Dear Parents,

As part of your daughter's study in Preliminary Biology of 'A Local Ecosystem' an excursion has been organised to the St Edward's Mangroves. This excursion is a compulsory part of the Preliminary Biology course and forms part of her assessment task.

We will be walking over to the mangroves at approximately 9am and will be marking the role before we leave school. We have chosen this date due to a low tide around midday.

Details:
Date of excursion: 1st March 2016
Venue: Mangroves at St Edward’s Oval.
Travel: Walking
Dress: Old clothes as students will be conducting field work.
Equipment: Pen, paper, a folder to lean on.
Food: Students need to bring all food and drink for the day, we will return to the school at both recess and lunch.
Cost: Nil

If you have any questions please do not hesitate to contact teachers on 4324 4022 at the College. The permission slip is due on 26th February to your daughter’s Biology teacher.

Yours faithfully

AJ Eades
(Science Leader of Learning)

Permission Slip (to be returned to your daughter’s Biology teacher by Friday 26th February.
I give permission for my daughter (full name) ________________________________ to attend the Biology excursion on 1st of March 2016 to the St Edward’s Oval.

Signed: ________________________________ Date: ________________________________
